The Original Bedside Cot

The safest and most comfortable way for parents
to be close to their newborn baby.

"It makes your life so much easier
when you do not have to get up
from bed for feedings or even for
nappy changes!
My baby loves it"

Dr Marcela Duran, London

Made from 100% natural and
solid Beechwood. Naturally
antistatic and antibacterial for
baby's health and protection.

Our wood is FSC[®]
certified
The mark of
responsible forestry
FSC[®] N001906

Used in NHS Hospitals and Birthing Centres Nationwide

Following the success of the Babybay Original, the **Babybay Medicare** is now available for **your hospital.**

This **patented bedside sleeper** has been adapted to strict hospital requirements in collaboration with experienced midwives in clinical practice, so that a **newborn baby can be very close to their mother** from birth.

Less getting up and down
 —
More rest & relaxation in the post birth period
 —
Particularly beneficial to Caesarean mothers

The **Babybay Medicare** makes the lives of Midwives and Birthing Consultants easier too. **Solid, easy care beechwood** and optional accessories such as the practical base platform will make the Babybay Medicare a coveted crib on your **maternity ward.**

Babybay Medicare Maxi

Lockable castors

Foam mattresses

The crib is made of solid beech - designed for exacting hospital use.

Compact size allows manoeuvring even in tight spaces.

Non-toxic lacquer, easy to clean and suitable for spray cleaners according to DIN68861.

The retractable locking siderail safely protects the baby from rolling out. Simply pull up and fit into the grooves means it is safe to use on the move or stationary.

Side rail is a safe height even when lowered for access.

The extra width of the lockable castors/ bed prevents unbalancing and even exceeds the requirements of DIN EN 1130.

Large, robust lockable castors with anti-tilt brackets for bold easy and almost silent movement. With brakes.

The optional storage space provides plenty of room for everything Mum's might need for their loved ones in the early days. With raised rim.

Dimensions and Construction

There is the standard compact Babybay Medicare as well as a bigger version for twins. All components are made from from solid sustainable beech wood and with a non-toxic coating. Both cots correspond to the medical product regulation Class 1, Regulation 1, appendix VII.

The Babybay grows with your family

The lifecycle of a Babybay goes far beyond its use as a bedside cot - it adapts and grows to fulfill a growing child's needs. It can simply be converted into a high chair, a desk or a charming bench seat, thereby making it useful for years to come and good value for money.

100% Beechwood and naturally antibacterial
